

Family Genetic History Recording Form

This form is a fillable pdf. This gives you the options of filling it out online or on your computer. Then, once saved, you can email it or print it.

Please fill out this form to the best of your knowledge. If you do not know about some of these disorders it is okay to just skip that part. The main emphasis is on the history of family neurological, psychiatric, behavioral, academic, social or difficult personality traits that were exhibited by family members.

The information we want is any medical such as thyroid problems and psychiatric diagnoses such as depression, anxiety disorders, Bipolar (Manic Depression), Attention Deficit Hyperactivity Disorder and Tourette Syndrome.

List any behavioral problems, e.g., has rages, is disrespectful, does not accept limits.

List any problems with school, e.g., learning disabilities, Dyslexia or an underachiever academically, unable to finish work.

Think of personality traits such as Type A personality, perfectionism, difficulty with anger, anxiety, disorganized, never on time, unable to initiate a boring job, can never be wrong.

List any social difficulties, e.g., has no friends, is socially anxious, is sometimes socially “clueless.”

If there are any step-parents please add them in under other.
